MEMORANDUM FOR THE FILE

E-X-T-R-A-C-T

"IG Survey of Firearms Regulations: Today [redacted] called to advise that the recently completed survey by the IG of firearms regulations affirms the status of gun controls in this area but does suggest some minor improvement actions. Frank advised that [redacted] had been appointed by the DD/P to be the focal point for actions in the DD/P area. I advised in turn that Logistics would be the DD/S action office and presumably Mr. [redacted] and Mr. [redacted] of Logistics would be our action officers. I called Jack Blake and informed him of the above. We must, however, await the Director's approval of the IG report."
